

Introduction to Today's Message

11 August 2023

We are happy to serve you here at our on-line church. There is no financial cost to you – **ever** – from this church. However there are other costs to you – as you will see – as we relate the teachings of God our father and His son Jesus. If you follow them it will result in changing your life to the best life you could ever live here on this earth and a joyful eternity later.

We exist because of the changing forces in our society. Traditional means of relaying the Gospel still work in some situations but as we are in the end times and the time is short we felt it would be best to make God's will known to as many as possible by being online.

We relate God's word to you as faithfully as we can from the original scriptures in Hebrew and Greek. Some of the most famous quotes of scripture translations into English are completely bogus. And wouldn't you know – they all had to do with salvation. The devil just doesn't want any of us sitting at the marriage supper of the lamb.

It is impossible to give all the background information you might need to accept everything we say – as gospel – in this short introduction but we have other sermons and radio broadcast transcripts that actually go into that kind of detail and explain everything; two of these are "Is there a magic formula for salvation?" (from the year 2017) and "An interview with God: God talks about his word" (2021).

Thank you for joining us and thank you for your patience as we know many will struggle to accept or to get their head around some very new concepts that have been hidden since the days of the Apostles.
